

La recherche sur le Nord à l'université de Bishop's

Professeur Matthew Peros, Ph.D.

Chaire de recherche du Canada sur les changements climatiques et
environnementaux

Faculté de géographie et de l'étude de l'environnement

MUSCLE Research Cluster

- Multi-scale climate and environmental change (www.muscle.ubishops.ca)
- Consists of 15 faculty members across natural and social sciences
- Funds student's research and organizes colloquia
- Four members have northern research interests:

- Dr. Jade Savage (*Biology*)
- Dr. Elisabeth Levac (*Environmental Studies and Geography*)
- Dr. Tom Fletcher (*Environmental Studies and Geography*)
- Dr. Matthew Peros (*Environmental Studies and Geography*)

Dr. Jade Savage

- Primarily interested in northern insect biodiversity and systematics
- Field sites have included Churchill, Baker Lake, and Rankin Inlet
- Recent papers published in: *The Canadian Entomologist* and *BMC Ecology*

Jade Savage
Rankin Inlet, NU

Jade Savage
Rankin Inlet, NU

Anais Renaud (student)
Churchill, MB

Dr. Elisabeth Levac

- Climate Change scientist
- Research includes work on marine sediment in the North Atlantic

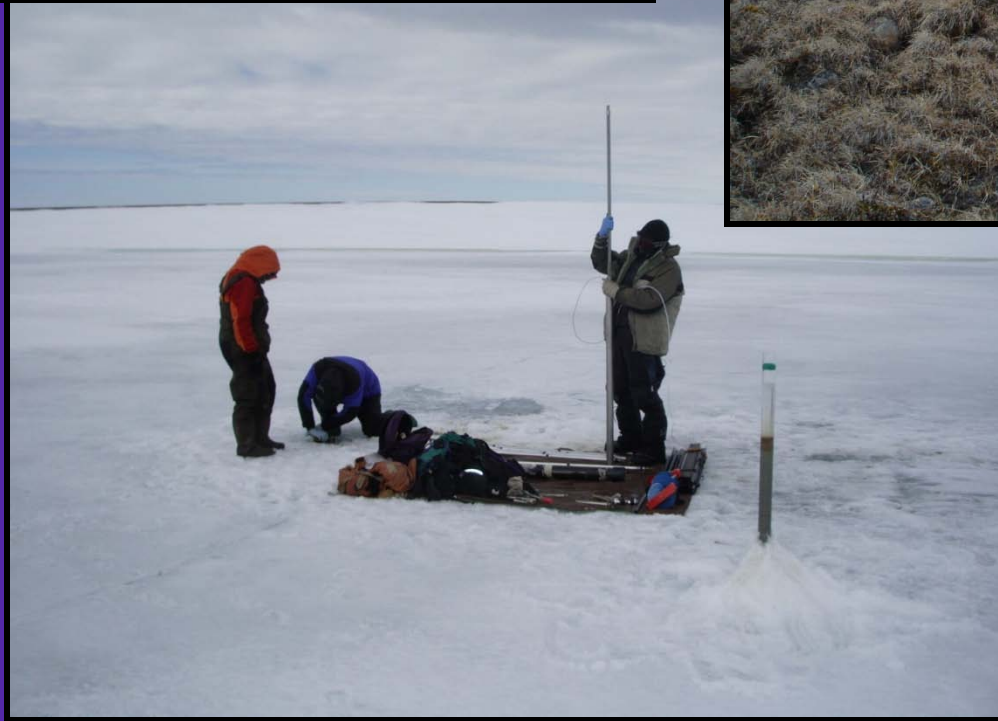

Dr. Tom Fletcher

- Research interests include Environmental Justice and hazardous waste
- Writing a book on Plan Nord

Dr. Matthew Peros

- Paleoclimatology in Canadian Arctic
- Fieldwork in Nunavut and Yukon
- Recent publications in *Quaternary Science Reviews* and *Quaternary Research*

Remerciements

- Fondation canadienne pour l'innovation (FCI)
- Conseil de recherches en sciences naturelles et en génie du Canada (CRSNG)
- Fonds de Recherche du Québec: Nature et technologies (FQRNT)
- Chaires de recherche du Canada
- Bishop's University
- Many collaborators and colleagues
